Welcome Message

Dear friends,

It gives us great pleasure to welcome you to AIIMS BARICON 2022 – The 3rd International Conference on Bariatric and Metabolic Surgery, being held from 28 September to 1st October, 2022. The AIIMS BARICON 2019 was a great success, which focused on complications after bariatric surgery. This year, the theme of the congress is "Maximizing Long Term Outcomes" to focus on the multiple complex factors which affect the outcomes.

Our programme will commence with the Cadaver Hands On Training Course at AIIMS, where a group of about 16 surgeons will get hands on experience in performing bariatric surgical procedures on a fresh cadaver with ample time for a one-on-one interaction and mentoring from a very experienced international faculty. It will be followed by the operative workshop at AIIMS on the second day with a variety of cases including revision surgery. The next two days will be dedicated to debates and discussions that lay emphasis on long-term outcomes. We have excellent speakers who have enormous experience and a large number of publications in Bariatric surgery.

The main congress on 30th September and 1st October, 2022 will be held at the Taj Vivanta Hotel, Dwarka, which is close to Delhi's international (IGI) airport. There will be two parallel halls running on both the days. There will also be multiple sessions for Allied health professionals including Bariatric coordinators, Dietitians and Psychologists specializing in care for bariatric surgery patients. We have also included a session on manuscript writing and paper publishing conducted by some renowned journal editors. We have more than 40 abstracts which will be presented at this meeting. We have also collaborated with the highly renowned Professor Haris Khwaja to convene the 46th IBC Symposium as a part of our scientific programme.

With autumn setting in, we expect pleasant weather, which will make the capital city, a treat to explore. Delhi is a wonderful city with a great deal of places to visit, plenty of lush green parks, amazing shopping hot spots, and eateries with some of the most delicious food India has to offer.

On behalf of the Department of Surgical Disciplines, AIIMS and Foundation for Obesity Research and Metabolic Surgery, we look forward to welcome you in New Delhi and wish you a pleasant stay and an enriching academic experience.

With warm regards,

About Venue

AIIMS, New Delhi

All-India Institute of Medical Sciences was established as an institution of national importance by an Act of Parliament with the objects to develop patterns of teaching in Undergraduate and Post-graduate Medical Education in all its branches so as to demonstrate a high standard of Medical Education in India; to bring together in one place educational facilities of the highest order for the training of personnel in all important branches of health activity; and to attain self-sufficiency in Post-graduate Medical Education.

The Institute has comprehensive facilities for teaching, research and patient-care. As provided in the Act, AIIMS conducts teaching programs in medical and para-medical courses both at undergraduate and postgraduate levels and awards its own degrees. Teaching and research are conducted in 42 disciplines. In the field of medical research AIIMS is the lead, having more than 600 research publications by its faculty and researchers in a year. AIIMS also runs a College of Nursing and trains students for B.Sc.(Hons.) Nursing post-certificate) degrees.

Twenty-five clinical departments including ten super specialty centers manage practically all types of disease conditions with support from pre- and Para-clinical departments. However, burn cases, dog-bite cases and patients suffering from infectious diseases are not entertained in the AIIMS Hospital. AIIMS also manages a 60-bedded hospital in the Comprehensive Rural Health Centre at Ballabgarh in Haryana and provides health cover to about 2.5 lakh population through the Centre for Community Medicine.
